

The Methow Watershed Council and the Methow Conservancy present:

ROCKING & ROLLING:

Sediment in the Methow River

A program by nationally recognized Hydraulic Engineer
Jennifer Bountry, Bureau of Reclamation

Next Tuesday

April 16th, 7PM, Twisp Grange

A river of sand and rock flows to the sea
underneath the river of water we see.
Learn about how this hidden river is
shaped by the river of water and how it
can shape our lives.
