

*The Methow Watershed Council presents:*

# **Fish and Flows**

## **Exploring the Watery World of Fish Habitat in the Methow**

A program by local Aquatic Ecologist John Crandall

**Tuesday**

May 14<sup>th</sup>, 7PM, Twisp Grange

Ever wonder what really goes on beneath the surface of our Methow rivers and streams? What mysterious creatures lurk beneath the logs and rocks as we float by? Variations in streamflow create a mosaic of habitat for fish to use throughout their lives. Learn how these variations influence fish populations and growth.
